

PMSA Data Request No. 181
Termination Payments by Year

PMSA DATA REQUEST NO. 181: Please provide for each year from 2017 to 2021 an accounting of each pilot or retired pilot with outstanding termination payments, and the total gross amount of outstanding termination payments per pilot, the termination payment rate, and total annual termination payments made to each pilot or retired pilot with outstanding termination payments.

Please note, to the extent that PSP considers such information confidential or proprietary, the Commission’s practice in cases where a protective order is not available is that rather than decline to produce the entire document that a response should redact confidential or proprietary information. In this instance, PMSA would consider that information to be redacted to include names that would identify the specific individuals provided with specific termination payments.

	Oustanding Balance	Total Payments Made During Year	Installment Payment Rate
2017	4,447.88	53,374.56	4,447.88
