Dear Mr. DeBoer:

The Utilities and Transportation Commission requests additional data related to an investigation into the business practices of Puget Sound Energy (PSE) related to disconnection fees charged for field visits for reasons other than disconnection of service, such as delivering a 24-hour notice.

Under Washington state law, RCW 80.04.090, the commission has the right to inspect the accounts, books, papers and documents of any investor-owned electric or natural gas company doing business in this state.

In order to complete this investigation, commission staff requires the following additional documents and information:

1. A list of all customers (electric and natural gas) in Washington state who received field visits for a purpose other than disconnection (e.g., 24-hour payment notice) that were charged a \$13.00 disconnection fee in the months of March and May 2011.
2. The name, title, telephone number, and e-mail address of the PSE contact person that our staff can work with directly for questions that may arise concerning any details of the data.
