

June 5, 2023

Commissioner David Danner, Chair  
Commissioner Ann Rendahl  
Commissioner Milt Doumit  
Washington Utilities and Transportation Commission  
P.O. Box 47250  
Olympia, WA 98504-7250

RE: Puget Sound Energy Final 2023 Gas Utility Integrated Resource Plan (UTC Docket UG-220242)

To the Commissioners:

This letter is a follow-up to the letter the Washington Clean Energy Coalition (WCEC) submitted to the UTC on May 8 regarding PSE's 2023 Gas Utility Integrated Resource Plan.

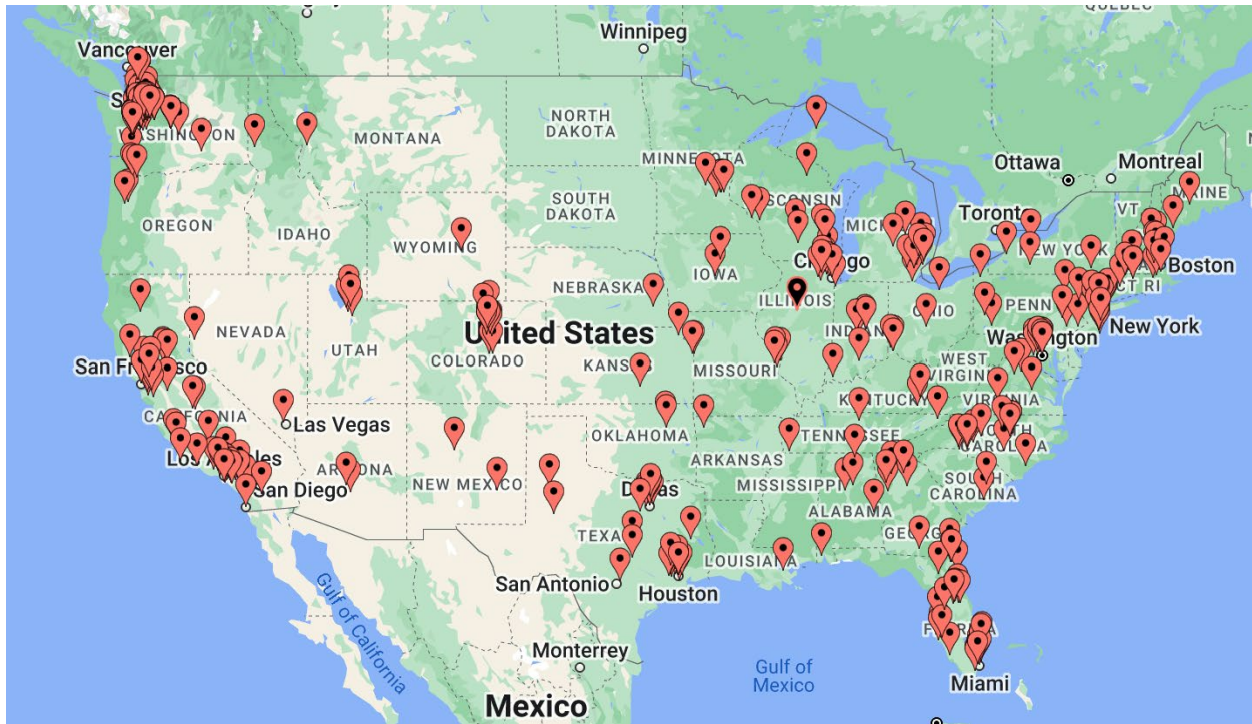

The WCEC is now reporting to you the results of an online petition that we created regarding PSE's Gas IRP. Our petition allowed the public to read our May 8 letter to the UTC and to add their signature if they agreed with our concerns and wanted the UTC to reject PSE's Gas IRP.

Our aim in creating the petition was two-fold:

1. **To educate the public** about PSE's long-term gas plan and its implications for their finances, the environment, and the well-being of their children and grandchildren.
2. **To empower ratepayers** to express their views on policies that will have a significant impact on their lives.

The online petition ran for approximately four weeks and garnered an impressive 584 signatures, which are listed in the following pages. It is notable that 300 signatures were collected from people outside the state of Washington, including from every state except North and South Dakota, West Virginia, and Vermont. While we understand that the Commission's authority is limited to Washington state, we nonetheless included these signatures because they reflect growing awareness that emissions originating in PSE's service territory can exacerbate adverse climate events in other regions of the country and the world.

The distribution of the petition signers is shown in the following map.

The WCEC operates as a grassroots organization with no budget, website, or dedicated staff. Awareness of our petition spread primarily through word-of-mouth among our members and like-minded organizations. We published a few free posts on social media. Although we did not solicit donations, a few dozen supporters spontaneously donated a total of \$557 to Change.org, enabling the platform to promote the petition and gather signatures from around the U.S. We appreciate the support these self-starters provided.

The collective voices reflected in these signatures, along with countless others who share our concerns, underscore the urgency of addressing future emissions. It is our sincere hope that you consider the interests and well-being of our community and future generations as you review PSE's gas utility IRP.

Sincerely,

Don Marsh  
Washington Clean Energy Coalition

## The Petition

Reject PSE plans to pollute for 26 years  
-- better solutions available!

Customers of Puget Sound Energy as well as a healthy environment and future generations would be harmed by the company's plan to continue emitting **huge quantities of greenhouse gases** for the next 26 years.

Instead of addressing the problem, PSE would charge customers **\$10 billion** to pay for carbon allowances required to permit these emissions. That's more than the company would spend maintaining and modernizing our energy grid during the next quarter century! Although PSE claims its plan is the "second lowest cost" option of the alternatives it studied, PSE uses an accounting trick to defer the costs of reducing emissions until after 2050, placing that burden on the shoulders of our **children and grandchildren**.

Fortunately, PSE's analysis shows a cost-effective option is less risky for customers, better for the environment, and more fair for future generations. **Washington Clean Energy Coalition**, the sponsor of this petition, has submitted detailed comments and recommendations to PSE's regulator, the Washington Utilities and Transportation Commission, which you can read [here \(PDF download\)](#).

By signing this petition, you are urging the Commission to **reject PSE's terrible fossil fuel powered plan**. Join us in our call for a cleaner energy future, lower and more stable energy costs, a healthier environment, and a lighter burden for our children and grandchildren.

## Public comments from ratepayers

- *PSE needs to do their part in greatly reducing carbon emissions*  
- Pete Stoppani, Redmond, WA
- *The Electrification Scenario achieves the greatest reduction of total emissions and the largest decline of emissions in 2050. This scenario is the most cost-effective solution for reducing greenhouse gas emissions at the pace necessary to meet the state's greenhouse gas limits!*  
- Michael Molendijk, Bainbridge Island, WA
- *We need to use common sense and also look to the future*  
- Yvonne Kuperberg, Vashon, WA
- *There is no excuse NOT to transition to clean energy sources such as solar, wind, geothermal, combined with efficient storage options, to meet WA's CETA targets. Forcing me and other PSE customers to pay to pollute is unconscionable when it will be better for our health, planet, and pocketbooks to transition as quickly as possible AWAY from natural gas, not PAY PENALTIES to keep burning it. In 26 years, with a combination of clean energy, smart storage, and electrification, we can certainly achieve the true objectives of the CETA targets: reduced CO2 emissions, cleaner air, overall lower costs.*  
- Ruth Marsh, Bellevue, WA
- *Reducing climate change can not wait.*  
- Melvin Mackey, Vashon, WA
- *I care about the fate of our planet and its inhabitants.*  
- Terry Sullivan, Vashon, WA
- *We must stop emitting huge quantities of greenhouse gases NOW - it is imperative!*  
- Merrilee Runyan, Seattle, WA
- *I believe in combating climate change.*  
- margaret roncone, Seattle, WA
- *Time is running out. We must move to solar and wind or our energy*  
- sheila brown, Vashon, WA
- *PSE must stop putting profits over people and the planet!!*  
- Linda Hagedorn, Woodinville, WA
- *Shame on PSE for refusing to take aggressive action to protect our planet with sustainable energy.*  
- Ellen Lockert, Bainbridge Island, WA
- *It's past time to end our dependence on fossil fuels for energy. We know this, the science is clear. We have the knowledge and skills to transition. We need companies, corporations, and politicians to do the right thing.*  
- Iris Antman, Seattle, WA

- *we must reduce fossil fueled pollution both within homes and outside as soon as possible. It's bad for lung and heart issues, and it's killing the planet. We need to switch to cleaner energies now!*  
- Julianne Martinson, Everett, WA
- *I want to see PSE move quicker on this transition.*  
- Mike Kelly, Bainbridge Island, WA
- *This terrible plan will pass the financial burden onto the customers without addressing the problem.*  
- Louise Pathe, Kirkland, WA
- *I care about the health impacts of climate change and I want to see PSE moving faster in the right direction*  
- Mark Vossler, Kirkland, WA
- *I am an unfortunate PSE customer. I am astonished at how unethical their business practices are and refusal to recognize the impact of their actions on the livability of the planet. Say no, make them do the right thing, for all of us, thank you.*  
- Claire Richards, Seattle, WA
- *We must quit burning fossil fuels!*  
- Martha Bishop, Port Orchard, WA
- *Our planet needs this. We have no more time to wait.*  
- Mack Johnson, Silverdale, WA
- *Our Earth, all species, incl humans don't have time to allow more pollution! PSE must be forced to do better! There are alternatives!*  
- Michael Siptroth, Belfair, WA
- *Please take care of the environment.*  
- Deborah Christian Hodack, Port Orchard, WA
- *I have been opposed to PSE's inaction on climate change from the beginning.*  
- Randy Grein, Bellevue, WA
- *We've got to stop damaging our planet, its the only one we've got. We can't let the profits for some (PSE) spoil life for us all*  
- Steve Albrecht, Olympia, WA
- *We must hold PSE's feet to the fire (no pun intended) to convince them to reject their plans to continue massive emissions of greenhouse gases. Our futures depend on it.*  
- Karen Rogers, Vashon, WA
- *I'm working hard on reducing my personal carbon footprint but it seems PSE is not at all. the future is now.*  
- Janet Kuller, Duvall, WA

- *I'm watching Washington forests die back due to drought caused by our climate crisis. We must cut fossil fuel emissions ASAP.*  
- Arriba Stature, North Bend, WA
- *Given the financial and environmental stakes, the recommendation that the Commission engage an independent analyst to validate PSE's assumptions and modeling before evaluating the IRP is a no-brainer. PSE's Preferred Portfolio is clearly a flawed recommendation and needs to be reconsidered.*  
- Kevin McCracken, Seattle, WA
- *I am a PSE customer and I am very concerned about PSE's 2023 Gas Integrated Resource Plan and its Preferred Portfolio, which offers only meager progress in reducing greenhouse gas emissions, using unproven technology that isn't available yet. Meanwhile, the company would charge customers \$10 billion to pay the Climate Commitment Act penalties for its enormous emissions. In its plan, PSE rejected viable alternatives that would achieve real emissions reductions, stabilize energy costs, and avoid unproven technologies. I strongly agree with the Washington Clean Energy Coalition's letter, dated May 8, 2023. Please reject PSE's Gas Integrated Resource Plan. Thank you.*  
- Geoff Cole, Seattle, WA
- *I don't want to pay for PSE to pollute our environment in South Puget Sound and beyond.*  
- Anita Thompson, Olympia, WA
- *We don't have time to delay clean energy!*  
- Susan Vossler, Kirkland, WA
- *PSE is submitting an unacceptable plan for the future with no direct action on its part to deal with fossil fuel use. Allowances are not enough!*  
- Maia Syfers, Vashon, WA
