Response to Public Counsel Data Request 97

Please refer to Confidential Attachment PC 97. Washington-allocated data is only available through February 2010 at this time. For the months January 2009 through January 2010, Washington's allocated share of the REC revenues is calculated using the Control Area Generation West (CAGW) factor from the December 2009 Commission Basis Report. The REC revenues for January and February 2010 are calculated using Washington's 2010 forecast CAGW factor. Confidential information is provided subject to the terms and conditions of the protective order in this proceeding.
