Re: Washington Utilities and Transportation Commission v. Olympic Pipe Line Company, Inc., Docket No. TO-011472

TO: PARTIES OF RECORD:

In preparing the judicial return for this docket, we reviewed the exhibit list in cooperation with staff and Commission counsel. As a result, we have updated general entries to comport with a review of the transcript, the exhibits themselves, and parties' post hearing. These are as follows:

Exhibits 2008 and 1218 are now shown on the list as "admitted". They were blank previously.

Exhibit 2114 was marked on the list as admitted. It is now shown as "not offered". This is consistent with related exhibits 2118-2112, which are not shown admitted on the list, and is consistent with the transcript.

Exhibits 719HC, 720C and 721C were blank on the list and are now shown as "admitted".

Exhibit 826 is now shown "confidential".

Exhibit 834C is now "not confidential".

Exhibit 1618 is now shown as "admitted".

Many exhibits that were blank in the A/R column are now shown as "not offered".

In addition, in connection with preparation of the return, Olympic waived confidentiality on several exhibits. Hence, the confidentiality designations on those exhibits have been removed, and the attached list reflects that.

As corrected, we believe that the exhibit list is now fully consistent with the notations on the exhibit documents, with the transcript, and with the actions taken at the hearing.

I have attached to this notice an amended copy of the exhibit list. If these actions are not consistent with your understanding, please respond accordingly within seven days after the date of this correspondence.

Sincerely,

C. ROBERT WALLIS
Administrative Law Judge
