Dear Mr. Johnson:

Attached is Cascade Natural Gas Corporation's (Company) documentation associated with its existing deferred gas cost accounting activity through February 2021. This information is being supplied pursuant to WAC 480-90-233 under Docket UG-200807.

The Company acknowledges a difference between the February 2021 deferred demand costs shown on the deferral worksheet "DG 2530.01254" in the February 2021 row and the summary table for the same costs in the worksheet labeled "DEFERRALS" for account code "47WA.2530.01254". The difference is \$192.33. This is a correcting entry to Cascade's books for a discrepancy in its January demand costs which was noted in last month's report.

The following files are electronically submitted as part of this filing:

- UG-200807 CNGC Monthly PGA Rpt February 2021, 03.26.2021.xlsx– This is an Excel workbook containing Cascade Natural Gas Corporation's deferred gas cost accounting activity through February 2021.
- UG-200807 CNGC Core GC Allocations Supporting Calculations February 2021, 03.26.2021.xlsx – This is an Excel workbook containing supporting calculations of core gas cost allocations for February 2021.

If you have any questions, please contact me at (509) 734-4593.

Sincerely,

/s/ Michael Parvinen
