Telephone call to from Dave Dorland Sr, 206/282-4200

RE: disinfection system construction

IMS called as follow up to recent letter from Dorland in response to my proposed ECA

- their attorney, Rick Finnigan expects WUTC approval of fee structure by end of year - this is necessary to pay for construction

- expects money to be available only when WUTC approves rate increase

- approval will probably come at same time as poor working conditions in winter - concerned that they will not be able to put in new pipeline (up to 3000') for contact time - until spring. Anticipate only 20 days construction
