**Re: Dockets UE-210822 and UG-210823
Second Updated 2022-2023 Biennial Report of Conservation Accomplishments**

Dear Executive Director Killip,

On May 31, 2024, Puget Sound Energy (PSE) filed its 2022-2023 Biennial Report of Conservation Accomplishments (Report) in the above-referenced dockets. An error was identified on page 2 of the Report that misrepresented PSE not meeting its 2002 Conservation Settlement natural gas conservation penalty target.

This updated filing is being made to correct the page 2 sentence “PSE did not meet its 2002 Conservation Settlement (PSE General Rate Case UG-011571) natural gas conservation penalty target of 9,262,931 therms nor its additional decoupling penalty target of 463,147 therms set in docket UG-210823” to now read “PSE did meet its 2002 Conservation Settlement (PSE General Rate Case UG-011571) natural gas conservation penalty target of 9,262,931 therms but did not meet its additional decoupling penalty target of 463,147 therms set in docket UG-210823.” PSE actually achieved 9,327,416 therms toward its total penalty target of 9,726,077 therms as demonstrated in Table 0-2. The tables are correct and remain unchanged.

The inaccuracy is due to a missed adjustment to reflect the final Home Energy Reports evaluation savings documented in Table II-4.

Please contact Lance Rottger at Lance.Rottger@pse.com or (425) 424-6919 for additional information about this filing. If you have any other questions, please contact me at (425) 462-3051.

Jeff Killip, Executive Director and Secretary
Dockets UE-210822 and UG-210823
