Re: Docket Nos. UT-921192, UT-950200, UT-991358, UT -030704

Dear Ms. Washburn:

Enclosed are the March 2006 service quality performance reports required of Qwest Corporation in accordance with Docket Nos. UT-921192, UT-950200, UT-991358, UT030704 and WAC 480-120-438 – 480-120-440.

The following reports are enclosed:

- 1) Installation Commitments Met/Held Orders,
- 2) Repair Commitments Met,
- 3) Trouble Report,
- 4) Abnormal Trouble Conditions Report,
- 5) Answer Time Performance,
- 6) Out of Service Report – 48 hours/Cleared Greater than 72 hours,
- 7) Trunk Blocking Reports,
- 8) Dial Tone Report,
- 9) Customer Complaint Report,
- 10) Customer Service Guarantee Report

The Service Order Interval Missed Commitment Report enclosed includes all orders completed in March 2006. Information is provided for each exchange and includes orders for primary service, orders held beyond five business days and orders not completed within 90 days. The order count used for this report includes primary and additional line orders. This report includes large business orders and excludes orders where the customer requested a due date greater than five business days, orders where Qwest was ready to install service but the customer was not ready, all orders for company official services and orders for service that were for five or more lines 5 Day Greater than 10% and 90 Day Greater than 1% column.

Please note that the Trouble Report statewide Report Rate percentage has been corrected for May 2005. There was a calculation error that only effected the statewide Report Rate and did not effect the wire center calculations. Qwest had reported to the Commission a statewide number of .85 and should have been .86. We had the same problem in March of 2005 which does not show on the current month's report due to the report being a sliding 12 month report. March 2005 was reported as .63 and the statewide number should have been reported as .86. Once again, the calculation did not effect the wire center level results, only the statewide number had a calculation error.

Enclosed is the Pending Order Report as of March 31, 2006, based on data generated for the OP-15A diagnostic measure, as ordered by the Commission in Docket UT-030704.

Pursuant to WAC 480-07-160(3), Qwest requests that the portions of these reports submitted on yellow paper be held confidential, as these documents contain valuable commercial information, the release of which would be detrimental to Qwest Corporation.

Please call me on (503) 242-5089 if you have questions or need additional information.

Very truly yours,

By

## INSTALLATION APPOINTMENTS MET

The Installation Appointments Met report measures the percentage of appointments for the connection of service met on the commitment date. Beginning with May 1993, report each month's results, adding subsequent months' data until 12 months of data is reported. After that point, add the current month data and delete the 13 month old data in order to always report percentages for 12 months.

COMPANY NAME: Qwest Corporation

- Calculations are based on 2005/2006 orders reflected in the Service Interval Missed Commitment Report 1, Commitments Met-Company Missed.

Month reflects calculation based on residence, small business and large business orders.

## HELD ORDERS

The Held Orders report lists the number of requests for primary exchange service that is not filled on or before the commitment date. State the number of held orders expressed as a ratio per one hundred new or reestablished lines ordered. Begin reporting with May 1993, ratios. After ratios for 12 months have been reported, subsequent reports should add the current month's data and delete the 13 month's data in order to continue reporting the most current 12 month of results. Beginning with January 1996 a new method of determining this statistic is used, making it not comparable to prior months.

**Qwest Corporation**  
**Reconciliation of the Service Order Interval Missed Commitment and Aging Reports**  
**March 2006**

The Year-to-date Aging Report reflects the progress made when an order is held due to the lack of company facilities. As of March 31, 2006, Qwest had [REDACTED] pending held orders over 30 days old due to a lack of company facilities, all of which were for additional lines.

The Qwest Service Order Interval Missed Commitment Summary Report for March 2006 indicates that we have completed 31,900 (98.72%) orders year to date within 5 business days (new, transfer or change orders with at least one inward line). 408 (1.28%) orders were not completed within 5 business days due to company reasons.

The March Year-to-Date Aging Report indicates that [REDACTED] total orders through March have been completed that were originally held due to a lack of facilities. By working with the March Service Order Interval Missed Commitment Summary and the March Year-to-Date Report the following conclusions can be drawn:

- 31,900 orders for lines were completed in March 2006.
- 153,199 total orders were completed in March 2006.
- Qwest missed the commitment/appointment for 561 orders (0.37%) of the total orders completed in March.
- 408 orders (1.28%) were not completed in 5 business days (408/31,900). These were all held orders. Information on the Aging Report indicates that [REDACTED] orders were held in March due to a lack of facilities (846 that have completed and 21 that are still pending). Therefore, you can conclude that the March orders that were not completed within 5 business days were held due to a lack of facilities. In other words, the technicians completed all orders within 5 business days unless they were unable to do so because there were no available facilities.
- Year-to-date, [REDACTED] orders (99.54%) have been completed that were originally held due to a lack of facilities, some of these orders may have been taken in 2003. [REDACTED]
- Of the [REDACTED] total orders held due to a lack of facilities to date, [REDACTED] were completed in less than 30 days (91.7%).
