BUILD IT, BUILD IT NOW!!!!!!! WA needs to maintain its sales of excess energy to CA during the summer to keep our electric bills lower. We also need to be in the forefront of Solar + Wind + Storage + EV adoption + Nuclear + Hydro base load to insure our energy security into the future. By the way, it would be way better for everyone, but the utility, to build solar power systems on everyone's home & business instead of to some fat cat utility solar company, keep it local!

Stewart Wadsworth, Ecostew
