Chehalis, WA 98532

Re: Resolution 350 authorizing one time water purchase

Mr. Miller:

On September 3rd, 2021 EFSEC received a request from the Chehalis Generation Facility for a one-time authorization for the purchase of 20 acre feet of water from the City of Chehalis during a low flow period of the Chehalis River. Per Article VI.A.7.a. of Chehalis Generation Facility's Site Certification Agreement water may be purchased during low flow periods in the Chehalis River with the EFSEC Council's authorization; provided funding is made available for conservation for the City of Chehalis' municipal water supply system to the same extent as water is purchased and sufficient notice is provided to the Department of Ecology of the proposal.

On September 14th, 2021 the EFSEC Council considered the request from the Chehalis Generation Facility and voted to approve the passing of Resolution 350 authorizing the one time purchase of 20 acre feet of water from the City of Chehalis provided that the stipulations in the resolution be met.

Please find attached a copy of Resolution 350. If you have any questions concerning this letter or the Resolution, please contact Kyle Overton at 360.664.1357 or kyle.overton@utc.wa.gov.

Sincerely,

Ami Hafkemeyer
EFSEC Siting and Compliance Manager
