RE: Notice of Temporary State Waste Discharge Permit No. ST0501312 for the Energy Northwest Columbia Generating Station and Industrial Development Complex Sanitary Waste Treatment and Disposal System, **Revision 1 Effective July 15, 2021**

Dear Mr. Barfuss:

The Energy Facility Site Evaluation Council (EFSEC) issued a Notice of Temporary State Waste Discharge Permit No. ST0501312 for the Columbia Generating Station (CGS) and the Industrial Development Complex (IDC) Sanitary Waste Treatment and Disposal System. The temporary permit took effect July 15, 2021. The temporary permit, effective for 5 years or until a State Waste Discharge Permit (SWDP) is issued, contained a mistake in the effluent limitations section for Fecal Coliform. The revised Notice of Temporary State Waste Discharge Permit reflects the correction from # org./mL to the correct limitation: # **of org./100mL**.

If you have any questions or need assistance, please feel free to contact Amy Moon at (360) 664-1362 or amy.moon@utc.wa.gov.

Sincerely,

Amy I. Moon
