Benton County Libraries

**Subject: Horse Heaven Wind Farm: Application for Site Certification**

Dear Librarian:

The Energy Facility Site Evaluation Council (EFSEC) is the Washington State agency responsible for the environmental review of the proposed Horse Heaven Wind Farm. Horse Heaven Wind Farm, LLC (the applicant) proposes the construction of a renewable energy generation facility that would have a nameplate energy generating capacity of up to 1,150 megawatts (MWs) for a combination of wind and solar facilities as well as battery storage systems (BESS). The proposed project is located in Benton County, Washington. During the review of such a project, EFSEC issues a number of documents that may be made available for public reference in the vicinity of the proposed project sites.

Enclosed with this letter is one flash drive containing the Application for Site Certification (ASC). The attached Summary Table indicates the number of copies being sent to your library. We are hereby requesting that you make these documents available for public inspection and reference in your library.

Please contact our office if you feel public interest in these documents warrants additional copies.

Thank you for your assistance in this matter. If you have any questions, please contact Amy Moon, Site Specialist at 360-664-1362.

Sincerely,

A handwritten signature in blue ink that reads "Sonia E. Bumpus".

Sonia E. Bumpus  
Energy Facility Manager  
Energy Facility Site Evaluation Council

Enclosures: Summary Table - List of Libraries

## Summary Table – List of Libraries

Library	Number of copies:
